A NEW MUSIC BOOK,

FOR NOTHING!

We have in press, and shall publish in October, "ASAPH, or THR CHOIR BOOK,"
a new collection of Church Music for Singing Schools and Undire, by Dr. Lowell, Mason. Dr. Mason "lest similar work, published in 1854, reached the enormous sale, in its first year, of over 64,000 copies, which is, we are confident, the largest sale ever enjoyed, in its first season, by any Church Music Book by a single author. The work now in press will embrace nearly all new matter, culled with great care from numerous sources, such, as it is believed, will be of the highest interest to Choirs and Singing Schools. Its Singing School Department is more extensive and complete tulan in any previous work, being, indeed, a complete work in itself, and forming an extensive collection of secular music, the words, as well as music, to which, are nearly all quite new. Retail price, one dollar.

We poblish, also, THE NEW YORK MUSICAL REVIEW, a formightly journal of sixteen quarte payes, including four pages of choice-music in each number, with twelve pages of reading matter, including frequent articles from the leading musicians of the country, with all the musical news, &c., &c. Subscription, \$1,00 per annum.

In view of the present hard times, and with the purpose of obtaining a wide circulation for apperimen copies of Dr. Mason's new work, we are induced to make the following liberal offer, viz... To every one sending us, beine let November, one dollar, (the price of subscription to the REPURN) we will furnish the paper for a year, and also, as soon assisued, a copy of Dr. Mason's new work were in the present hard times, and with the purpose of obtaining a wide circulation for apperimen copies of Dr. Mason's new work were in the present hard times, and with the purpose of subscription to the REPURN work work above amounced. thus giving two dollars' work hor one. (Signed.) Thomas S. Anthony, Clerk.

The above charges include all the writer ever brought be ore the General Assembly against blr. Ames, the Chief Justice or Reporter, in any chape, up to the period of the insertion of an editorial in the columns of the Journal, of the 29th of February, 1860, in which among many other imputations equally untenable and derogatory to my motives and moral character you say :

"It was the very audacity of these charges that secured for them the attention they received. Their author annears to have arted on the prerumption that by charging everything, something, would be sustained, a common trick of those who attempt to injure the character of others. But the attempts of this man and his confederates, il confederates he har, has been completely foiled. The committee that was so long in session found nothing in the Reporter to be called in question, that of Judge was on Monday indefinitely postponed by a large mejority of the comfited."

In view of the facts, I respectfully ask as Journal that contained the editorial referred to, together with the following copy of a letter I have received from General J.

"The great question of how to adjust the national finances upon a sound and reliable basis has devolved upon Congress: Bankers, political economists and commercial deputations have tried to the response of anything they do. For example, the Burnside and the indigenent and decree therein should not be reported agreeably to the following able article from its columns:—

"The great question of how to adjust the national finances upon a sound and reliable basis has devolved upon commists of chapter 171, section 3d, of the Revised Status. And also of inquiring whether the union of the offices of Chief Justice and reporter in the same personal and their opinions of the personal agreeable one. "We regret to say that considerable evidence of disloyalty to the Confiderate Government has been manifested in some of the counties in West Tenuessee since the of the countries in Year Interests since the call upon the militis was made—voice county (Carroll) having gone so far, we learn, as positively to refuse to aithmit to the detail. In Weakly county also, we learn, there was trouble on Monday last, which led to the fear that acrious difficulties would occur there, but we understand that matter were settled peaceably and without blood-ahed, which was at one time apprehended. In McNairy county, towever, the disaffec-tion seems to have reached its highest point, as we see. from the Weat Tennessee Whig, that it was fund accessary to send troops into that county to arrest some of the authorities, and to send detaphagents of soldiers into some of the other countries for the tanie purpose.

Rebel News .- It appears that the Norfolk Day Book discredits the report that Burnside is in Paintico Sound. The liichmond Examiner, however, has the following :-

"An official despatch has been received at the Wer Department, dated yesterday morning, stating that the expedition had made its appearance at Hatteras, inside the bar. The contents of the despatch are bar. The contents of the despetch are that twenty-six Federal steamers were inside the bar and six lying outside, besides sixteen sail vessels, making a total lorce of forty-sight ressels. There appears to be a strong disposition, even in official quarters, to believe that an attack is meditated in the rear of Norfolk."

The denial of the Norfolk paper doubt a result of the new policy of the rebela, to suffer no war news to be published, without the consent of their gov ernment. To the same cause may ascribed the audacious nesertion of the Richmond Despatch that the agrount of our victory in Kentucay is a steck exchange canard. The plan on which the rebels now act is like that of the ostrich; they hide their beads and then think that the danger which they won't one, does not exist. It will take some stronger policy than that, however, to successfully en counter the measures now in progress for their overthrow.

How the Rebels were Defrauded .- After all that has happened, it is certainly refact lost the government their oredit and may sumply fulfil the high expectations. The court and Reporter are fully freshing to find a rebel print complaining freshing freshing to find a rebel print complaining freshing f of what it calls stenling. Nevertheless the Charleston correspondent of the Richmond Despatch musters up the courage to make the following lament :--.

"The Yankee fleet off this coast is composed partly of fine steamers, robbed by them from our people of Charleston and Savanuah. These vessels were in New York about the time of Lincoln's inauguration as President, and were detained by their rascally agents there, on various pretexts, until they were stolen by order of the Yankee Government.
